

Roaming Data Day Plan (“Day Plan”) Terms and Conditions - China Mobile Hong Kong network

The following terms and conditions are supplemental to the Registration Form of HKBN Mobile Services and the Special Terms and Conditions of Mobile Services for Corporate Subscriber.

1. Subscribers with specific mobile monthly plans can enjoy the Day Plan with the deposit requirement waived. The Day Plan is charged according to the data usage consumed on a per-day basis (must use designated network). A day is defined as 24 hours after first data roaming usage at the applicable country/destination. Usage less than one day will also be treated as one day for charging..

2. When travelling to destinations outside the Data Services’ coverage, the Subscriber’s data roaming is automatically deactivated. However, the Subscriber can still make calls and send SMS. If the Subscriber would like to use standard data roaming, please submit a written notice (by using the prescribed form provided by HKBN) to HKBN or call 128 180 (only applicable to user with prior written consent of the Subscriber) to activate standard data roaming and agree to the related charges applied after the Subscriber’s confirmation.

3. Day Plan is only available in designated destinations with designated roaming network(s). Such designated roaming networks may be subject to change from time to time without prior notice. Actual experience of the Day Plan is subject to the coverage or network conditions of the roaming network(s).

4. Whilst the Subscriber is roaming in a destination designated by HKBN, the Subscriber may under certain circumstances (for example, cellular coverage spill over from neighbouring destination due to geographic proximity of the destinations) roam onto a different destination’s network (the “Second Destination Network”). In the event that the Second Destination Network is included within those networks specified by HKBN for Data Services, HKBN will also charge the Subscriber for roaming on the Second Destination Network according to Data Services.

5. The Day Plan applies to all data roaming usage in designated destinations with designated roaming network(s) but does not include Wi-Fi roaming service or any other value-added services or multimedia content download charges. In order to provide a more comprehensive service and to avoid abusive use, HKBN has the right to amend the scope of applicable services. In relation to any amendment, the latest announcement by HKBN shall prevail.

6. The Day Plan applies to all data roaming usage in designated destinations with designated roaming network(s). When the Plan is activated, all data roaming usage fees on designated roaming networks will be calculated in accordance with the Day Plan.
7. If local data of a Subscriber's service plan excludes tethering, the Subscriber cannot use tethering when using Data Services.
8. When travelling to an applicable roaming destination, Subscriber's handset will be automatically directed to the designated roaming network (depending on local network compatibility). To avoid any unnecessary data charges that may arise from the use of nondesignated roaming networks, it is recommended that Subscriber regularly checks whether the handset is connected to the designated roaming network.
9. Apart from roaming service, Subscribers are also required to have data service in order to use the Day Plan.
10. For the benefit of Subscribers and service quality, when there is any abusive or abnormal usage, HKBN has the right to forthwith suspend/terminate the Day Plan without notice and charge Subscribers at the HKBN's standard roaming rate. All commercial or illegal promotion activities undertaken via use of the Day Plan shall be prohibited.
