WTT HK LIMITED (“WTT”)

S2. IPLC - Managed Bandwidth

Effective date: 25/9/00

This service is a full circuit IPLC service which includes both Hong Kong half circuit and Far End Half Circuit. This service will provide Customer with a seamless, clear channel service with international bandwidth and full end to end network management between Hong Kong and designated countries. This service provides digital connectivity at approximate data rates of 1.5 or 2 Mbps. Bandwidths higher than 2 Mbps and optional local tail circuits to a Customer Site may be available upon request.

Monthly Rental Charges (See notes 1, 2,3 & 4)	South East Asia and Pacific (HK\$)	Indian Subcontinent, Europe, Middle East, UK, North America, Rest of World (HK\$)
<i>T1 (1,544 Kbps)</i>	\$512,000	\$640,000
<i>E1 (2,048 Kbps)</i>	\$600,000	\$750,000
Overseas Local Tail Installation Charges (per End)		
<i>T1 (1,544 Kbps)</i>	\$15,000	\$50,000
<i>E1 (2,048 Kbps)</i>	\$15,000	\$50,000

Notes:

- Bandwidths exceeding E1 capacity will be charged at a multiple of the above charges according to the number of E1 bandwidth ordered by the Customer.
- Monthly Rental Charges include monthly rental charges for local tail circuit. Provisioning of local tail circuit is subject to availability of service. Hong Kong Local Tail Installation Charges applicable to DataConnect Services will be charged to Customer subscribing local tail circuit.
- Monthly Rental Charges shall be paid by the Customer in advance.
- Connection during a billing cycle will be charged in advance on a prorated basis.
- The above Overseas Local Tail Installation Charges are indicative only; final costs will be confirmed after the actual site survey.
- Unless otherwise specified all special conditions applicable to International Private Leased Circuits shall apply.
