

**UNIFIED CARRIER LICENCE  
TELECOMMUNICATIONS ORDINANCE (Chapter 106)**

**WTT HK LIMITED (“WTT”)**

**U. VIDEOLINE**

Effective date: 20/11/03, Revision date: 24/3/10

**Videoline - Global Multi-point Conferencing** (“VGMC”) is a multi-point video conferencing service with ISDN as transmission media. VGMC enables up to 7 sites in different countries with different bandwidth support ranging from 128kb to 384kb to participate in a conference simultaneously. VGMC supports 3 conferencing modes i.e. Video Switch, Continuous Presence and Broadcast and more than 20 screen layout formats. Charges for VGMC include WTT's standard ISDN charges\* for the duration of conference (which is charged on a per line per minute basis) and the following:

Service		Charge per min. (HK\$)*
Port Charge (Per Site)	Dial Out	\$7.0
	Dial In	\$14.0
Operator Support (Per Call) (Optional) – Support rendered by WTT operators during the set up and continuation of the conference call		\$20.0
On-Site Support (Per Visit) (Optional) – Support rendered by WTT technicians attending the customer's premises during the set up and continuation of the conference call		\$33.6
Recording (In DVD Format) (Optional)		\$300.00

\*Note: A minimum charge for 30 minutes applies.
