5 USER NOTES

When you receive your Service Notification Letter

- Set your PIN immediately and change it on a regular basis
- Avoid using easy-to-guess numbers (e.g. 111111, 123456, 654321 etc.) as your PIN

When using your 009 Hong Kong Connect Service at public or digital display phones

- Avoid using public phones with printer capability (e.g. fax machine or rental phones in China)
- After using public phones, please pick up the handset again and dial a random number to clear the memory for redial

If you have lost your 009 Hong Kong Connect Number or PIN

- Report to our Customer Service Hotline immediately to terminate the service and request for replacement service

When you have staff using the Corporate 009 Hong Kong Connect Service

- Recommend each staff to use ONE 009 Hong Kong Connect Number
- Change to a new PIN upon resignation of any staff

When you pre-set Designated Overseas Telephone Number of 009 Hong Kong Connect Service

- Avoid using public phone numbers or phone numbers connected by operator

Information on Pre-set Usage Level

- In order to better help our customers, manage their IDD usage, an International Calling Services Pre-set Usage Level is introduced. It is an indicator that reflects the pre-set monetary value of your anticipated monthly IDD usage, including both 009 Hong Kong Connect and IDD 009 services. You can refer to your 009 Hong Kong Connect Service Notification Letter and your monthly invoice for information on the pre-set usage level.
