On “Call Settings”, select “Internet Call”:

- **All Networks** – you can make/receive calls using Wi-Fi or a data connection

You are recommended to turn **OFF** Mobility to receive calls via Wi-Fi or a data connection

Please ensure you are using a stable Wi-Fi or a data connection for a better call experience under Internet Call Mode.

Internet Call over a data connection may incur additional charges from your mobile operator.

1. For the app installation, one (1) office phone number can only be paired to one (1) mobile number.
